Dear Mr. Schwartzman,

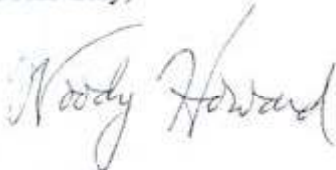

We wanted to express our appreciation for the workshop on Musical Theater which you gave here.

The student response was very positive. They commented that they felt more comfortable singing publicly and that they had a better understanding of many of the techniques for self expression through musical theater.

The faculty who were present said they were also inspired by your teaching methods and by the fact that you were so "present" in the moment. Your response to, and instruction of the students set a great example to bring to their own classrooms.

We look forward to working with you again! Please let us know your itinerary for the 2007-2008 year as soon as it gels.

Yours truly,

Woody Howard  
Chair of Performing Arts 6-12
